Part 1 : An Introduction to UNIQUE DIFFERENCES HERE Are Set Forth Herein This Presentation
An online active file space [memespace] is open to the public

<http://denvercap.fuckeduphuman.net>

Time Pressing Mpatapo reconciliation -- and the contents removed and never search engine indexed. The contents are set forth of the value of @Realuphuman.net, The Truth, The Whole Truth, and nothing but the truth. If what is currently showing, by namespace alone , was not the the truth, would be grounds for a defamation suite against the historian information gathering collection. It is the truth and tools of creation of your client #12153. Not only Client#12153 tools himself but of his integrity to have on record, he was a former notary and this system of technology being put into the the sphere of tools in the real case world, holds to the society values of document authenticity and integrity the same as his former Public Notary Certification in California in 1999.

Personally documented as being your client #12153 first ever job working for the Bernardino City Public Library... the project of a BBS system was development fresh from scratch prior to employment as as volunteer project known as Microlink BBS. Documented in Library Journal Publication Article Published November 1st 1987.

[Public Access Microcomputer Services in Public Libraries.pdf](#)

18-Nov-2012 13:30 1.1M

Supplemental the Article appearing in the same full Library Journal issue publication

this Article applies to the validity of such a personal information system that is in the care of your client #12153.

Shall we continue to debate who is right and who is mistakenly wrong and/or
intentionally

creating confusion by wrong choices rather than bridging the gap of technology
advance in

concepts here --- and for understanding than an intractable conflict [<http://conflict.colorado.edu>]

that your staff at Colorado Health Network has engaged to suppress the technology
knowledge of his

very own abilities and previous employment/career experiences. '

My motivation to this letter here, test integrity of the informational theory
design.

REAL CASE DOCUMENTED for the debut of white papers on this subject.

I will continue knowing right vs. wrong. Also knowing that the facts as they are
declared

in the unsigned unexecuted document of client #12153 suspension is not accurate to
the actual

events that have been occurring and occurred that day of the document date June 6th
2017.

The detail to which will be the very last thing to attach to this full address. You will look
silly.

Shall you Chief Executive Officer, as responsible agent in charge continue to
violate my United

Nations documented rights to the convention of enabling these rights for persons
with disabilities?

I wonder if you really are that ignorant to the case here to represent this case to
the world

as justly suspended as it has been unjustly from the all time case, improperly
case managed person centered apart from the conflict of interest topics on YouTube
that even if the law of determined targets for implementation into our society does
not directly health field relate to your service @Denvercap, it does have relevance
for
discussion and that is the point.

Instead of that discussion, I receive an eviction.

Instead of that discussion, I receive termination of services at Rocky Mountain
Cares.

Instead of that discussion, I receive suspension of services at Colorado Health
Network,

Your choice to hold the "Conflict Of Interests" that are established in the setup of your organization is
unbecoming
of a character wise of an officer of business and a gentleman you sir to our society.

If your reluctance to see your client #12153 as a valid not invalid to these issues topics and concerns and then
the
technology approach he has placed into design work... your invalid points of ignorance is disturbing and still
proceeds....

which is a disservice to the entire community population is in undeserved dis-
service

as well I hold you to your collective ownership moral responsibility.

Not one HIV/AIDS related death is acceptable under this exposing truth.

Study shows direct link between state spending habits and AIDS deaths

news.yale.edu/.../study-shows-direct-link-between-state-spending-habits-and-aids-deat...
Feb 3, 2016 - A **study** by researchers at the **Yale** Global Health Leadership Institute (GHLI) ... The **study** was
published online in the journal **AIDS**. ... 2000 and 2009 from all 50 states regarding **HIV/AIDS** case rates
and **AIDS** deaths.

Part one of Outline Introductions of New Standards Complete

Part two, introduction to the enable rights for persons with disabilities documentation at the United Nations Website.

Part three, the incident on record of June 6th 2017

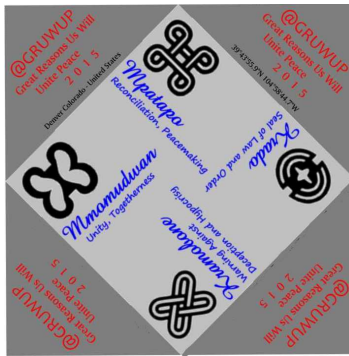

Part four #Conspiracy

Part five #Exposed

Part six, preparation to the pursuit of remedy -- a full and complete filling of a DISCRIMINATION CASE worth value \$5,000,000+ against the actors of #conspiracy here in Denver and previously encountered in Oakland CA.

Is that really the way you want to be known for --- for all time human history?

This document of great expectations of the assessments of truths and the re-assignment of your priorities at Denver CAP of today Tuesday July 11th 2017, 08:02am is signed and sealed by these image presence.
