Dear Oh Kind Sir Cameron Grant,

Although we don't know each other very well, as such are the circumstances of case management failures in my case, which are drastic and extreme.

None of which that history applies directly onto you.

I arrived in the Denver Metropolitan area with a failing HAART from Cheyenne Wyoming.

However in Cheyenne Wyoming I was able to secure the mental health medical health interface that was so drastically needing to be placed all of the way back to my first dates of HIV Infection in September of 1999.

[Http://community.gruwup.net/01D/](http://community.gruwup.net/01D/)

Case Management failures after failures after failures has placed a story into the world on the web in also such a high mark unique cyber presence that is an absolute truth.

It is you all and not me responsible for the casualties of concern that I know I have a huge descrimination case of merit and standing against "The System" if we want to call it that.

For my writings on the dysfunction for these many years are on the web and cannot be denied that is a fact of the way I do things.

There is absolutely nothing wrong with the way I do things.

Again, I have to emphasize this clause:

IT IS YOU ALL AT FAULT AND NOT MY FAULTS THAT ARE MORALLY RESPONSIBLE IF NOT LEGAL RESPONSIBLE FOR THE CAUSALITY OF DISREGARD OF CLIENT CENTERED NEEDS FOR WHICH THE SYSTEM IS DESIGNED TO KILL ME RATHER THAN SUPPORT ME.

Yes.... That is a strong statement and is true.

@RealUpHuman True.

The filing of eviction case here in Denver against me on November 30th 2016 the very day of World's AIDS Day Eve in HIV supportive care subsidized housing at Chesney Kleinjohn Apartments is an insult beyond belief onto our community that I will not release to sit down and shut the fuck up.

I have a friend here interfaced in my life with grand writing skills that he actually actually makes a profit in that effort. He is the one helping me.

This because I have lost all faith , for justified and documented reasons, that anyone in "The System" can actually do the right thing instead of time and time again doing wrong after wrong.

Where do you find yourself in the materials I have shared to this community?

Your silence is your answer for me to place in my view -- you too are just the same as them and are no different.

And furthermore you have no incentives to change to do the right things over wrong.

So why should I trust that untimately, doing the same thing over and over again without some kind of external change --- the same result will be the outcome.

STANDING UNCENSORED!

How many times shall I have to fail when it is not me at fault and it is you all at fault morally responsible to accept that fault and change.

How many times? This being the 3rd casualty of AIDS supportive care housing who leaderships go forward with impunity.

When am I going to see client-centered approach to my case management which is your legal obligation on the Ryan White foundation missions of foundation.

Or have I been living in some 3rd world poverished nation for the past 16 years going on 17 of my HIV/AIDS disease. ?

I demand a community level apology from this Local Denver community for disregarding many of my basic human needs to which my dignity is extremely harmed.

I want a commitment that this kind of activity against me or any one else in community for that matter SHALL NOT BE THE STANDARD to pass as Standards-Of-Care in the Ryan White Agency services onri the actualization in my case(s) region to region for damn sure.

I want my due rights of held secured subsidized housing returned back into my life ASAP with delay or excuse this avoiding the financial harm onto my life for having to be in the free market with a disability or go home into family housing care because I am not able to afford such markets long term.

In the words of Pope Francis that I attempted to bring forward of

Mr Woodbury,

I received your contact information from the following online announcement of public meeting for last year April.

<http://www.downtowndenver.com/event/affordable-housing-public-meeting-city-and-county-of-denver>

I have a public fully media worthy story to unfold to our community that is outrageous.

In a #ConspracyExposed of a 11 month on going hate and harassment campaign against me .. finally succumbs to final forces against me by thier filing for eviction on World AIDS Day Eve (November 30th 2016) in supposed HIV/AIDS supportive care housing at Chesney Kleinjohn Apartments here in Denver Colorado.

My case management was transferred to Rocky Mountain Cares in May of last year after my Medical Insurance was cancelled for reasons not my fault. I was actually able to return to the same plan after careful consideration of the circumstances. It was touchy feely for a while that I was going to pick a different plan and different choices of coverages. It would be obvious what happened and was not my fault and my plan continues.

Take that event into consideration when you read the following below correspondence I have made in my lastest attempt to get a proper trustable case management interface to Ryan White Agency services here in Denver. I have a story to tell.

In court on the record of filings of my answer of complaint against what happened, is the truth. I can quickly provide a link to my answer. It is also already placed on Twitter as public record at same time of filing to the court.

Case#2016C70106 Denver CO
Pillar Property LLC vs James Driskill as I said filed November 30th 2016 when in earlier in May I wrote to community with the words of Pope Francis and placed this as community address #01 and was also tweeted to our world's to the address of @Pontifex . These are facts. All my community concern addresses have both written and spoken voice text narratives available for easy passing into community mindsets which fail.

[Http://community.gruwup/01](http://community.gruwup/01)

The status of peace building can only be offerered outside of basic survival needs - apparently.

In my attempt to get a proper address of issues, this was written to case manager at Rocky Mountain Cares.

Please also listen to this. This perhaps the best proof of standing that I have a high merit winnable discrimination case against the actors involved here - for which I said to the Judge in my case on my final day that I was heading to The United Nations to plea my case and denounce my United States Citizenship to find some place where good people are treated right and not wrong time after time after time.

This below is directed to my current case management on record at Colorado AIDS Project Denver Colorado.

There are two starting locations on Facebook that I would like you to become aware of. First, on the page of the current legal attorney for the plaintiff remains standing uncensored. I have a feeling that my story however it is not able to be played out in court in case #2016C70106, they realize the seriousness of issues and have left my issuance of words to hold for permanence.

Yes.... That is a strong statement and is true.

@RealUpHuman True.

The filing of eviction case here in Denver against me on November 30th 2016 the very day of World's AIDS Day Eve in HIV supportive care subsidized housing at Chesney Kleinjohn Apartments is an insult beyond belief onto our community that I will not release to sit down and shut the fuck up.

I have a friend here interfaced in my life with grand writing skills that he actually actually makes

a profit in that effort. He is the one helping me.

This because I have lost all faith , for justified and documented reasons, that anyone in "The System" can actually do the right thing instead of time and time again doing wrong after wrong.

Where do you find yourself in the materials I have shared to this community?

Your silence is your answer for me to place in my view -- you too are just the same as them and are no different.

And furthermore you have no incentives to change to do the right things over wrong.

So why should I trust that unilmately, doing the same thing over and over again without some kind of external change --- the same result will be the outcome.

Hello? Is anybody listening?

I have a public fully media worthy story to unfold to our community that is outrageous.

In a #ConspiracyExposed of a 11 month on going hate and harassment campaign against me .. finally succumbs to final forces against me by thier filing for eviction on World AIDS Day Eve (November 30th 2016) in supposed HIV/AIDS supportive care housing at Chesney Kleinjohn Apartments here in Denver Colorado.

My case management was transferred to Rocky Mountain Cares in May of last year after my Medical Insurance was cancelled for reasons not my fault. I was actually able to return to the same plan after careful consideration of the circumstances. It was touchy feely for a while that I was going to pick a different plan and different choices of coverages. It would be obvious what happened and was not my fault and my plan continues.

Take that event into consideration when you read the following below correspondence I have made in my lastest attempt to get a proper trustable case management interface to Ryan White Agency services here in Denver. I have a story to tell.

In court on the record of filings of my answer of complaint against what happened, is the truth. I can quickly provide a link to my answer. It is also already placed on Twitter as public record at same time of filing to the court.

Case#2016C70106 Denver CO

Pillar Property LLC vs James Driskill as I said filed November 30th 2016 when in earlier in May I wrote to community with the words of Pope Francis and placed this as community address #01 and was also tweeted to our world's to the address of @Pontifex . These are facts. All my community concern addresses have both written and spoken voice text narratives available for easy passing into community mindsets which fail.

The status of peace building can only be offerered outside of basic survival needs - apparently.

In my attempt to get a proper address of issues, this was written to case manager at Rocky Mountain Cares.

Please also listen to this. This perhaps the best proof of standing that I have a high merit winnable discrimination case against the actors involved here - for which I said to the Judge in my case on my final day that I was heading to The United Nations to plea my case and denounce my United States Citizenship to find some place where good people are treated right and not wrong time after time after time.
